

NARAL PRO-CHOICE NEW YORK

ACTIVIST TOOLKIT

2010

www.ProChoiceNY.org

NARAL Pro-Choice New York is a political and advocacy reproductive rights organization that works at the state and local level to protect and advance access to the full range of reproductive health care to help men, women and teens stay healthy and safe.

We work to pass proactive, pro-choice legislation and to defeat anti-choice initiatives. Politically, we work to elect pro-choice officials and hold them accountable by ensuring they pass or defeat legislation consistent with our mission. At the community level, we provide educational resources and information while simultaneously engaging and empowering individuals to join us in working to achieve reproductive choice for all New Yorkers.

2010 Action

This year, our political work includes campaigning to ensure that pro-choice candidates are elected to all levels of city and local government. On the legislative front, we are working to pass the Reproductive Health Act, a bill that would guarantee a woman's right to control her reproductive health here in New York State. In our community work we organize and mobilize thousands of New Yorkers, in every corner of the state, to be ambassadors for our message and take action in all of our political, legislative and community efforts.

We are only able to do this work with the participation of activists like you.

This toolkit will provide you with solid ideas and tools that you can use today to get out there and get started on making pro-choice change in your community and beyond. Please feel free to contact our Community Organizer Lalena Howard at 646-520-3506 or LHoward@prochoiceny.org with questions, success stories, for support, or with ideas for the future. We are excited to partner with you and can not wait to hear about all the amazing work you will do in support of women's right to choose.
